

NORTHWIND LABS
REMOTE WORK POLICY
Effective 1 January 2026

PURPOSE

This policy describes where Northwind employees may work and what the company provides to support remote work.

ELIGIBILITY

All salaried employees who have completed ninety (90) days of employment are eligible for hybrid work. Employees in Hardware Operations and Lab Services are on-site roles and are not eligible.

CORE HOURS

Employees must be reachable between 10:00 and 15:00 in their registered time zone. Meetings outside those hours require agreement from all attendees.

OFFICE ATTENDANCE

Hybrid employees attend the office at least eight (8) days per calendar month. Fully remote status requires director approval and is reviewed annually.

EQUIPMENT AND STIPEND

Northwind provides a laptop and one external monitor. New remote employees receive a one-time home-office stipend of USD 1,200, claimable within the first six months. A recurring connectivity allowance of USD 60 per month is paid with payroll.

WORKING FROM ANOTHER COUNTRY

Employees may work from another country for up to thirty (30) calendar days per year with manager approval. Stays beyond thirty days require People Operations review because of tax and immigration exposure.

SECURITY REQUIREMENTS

Company data may only be accessed from Northwind-managed devices. Full disk encryption and the company VPN are mandatory. Personal cloud storage must not be used for company documents.

EXPENSES

Home internet is covered by the connectivity allowance and is not separately reimbursable. Co-working desk fees up to USD 250 per month are reimbursable with prior manager approval.

QUESTIONS

Contact People Operations. This policy is reviewed every twelve months.
